

## Dr. Carl R. F. Lund

last revised 1/6/20

### Education:

Ph.D., **University of Wisconsin**, Madison, Wisconsin, June 1981.

Major: Chemical Engineering.

Thesis: Solid State Chemical Probes of the Active Site for the Water-Gas Shift Reaction on Supported Magnetite Catalysts (J. A. Dumesic, Advisor).

B.S., **Purdue University**, West Lafayette, Indiana, May 1976.

Major: Chemical Engineering

### Employment:

SUNY Distinguished Teaching Professor, May 2007 – present.

Professor, September 1997 – May 2007.

Department Chair, June 1997 – January 2006.

Associate Professor, September 1989 – August 1997.

Assistant Professor, September 1986 – August 1989.

Department of Chemical and Biological Engineering, **University at Buffalo** (SUNY), Buffalo, New York, 14260.

Chair, July 2018 - present

Department of Engineering Education, **University at Buffalo** (SUNY), Buffalo, New York, 14260.

Associate Dean for Research, January 2006 – September 2006.

School of Engineering and Applied Science, **University at Buffalo** (SUNY), Buffalo, New York, 14260.

Senior Engineer, December 1984 - July 1986.

Research Engineer, June 1981 - November 1984.

**Exxon Research and Engineering Company**, Corporate Research Science Laboratory, Annandale, New Jersey, 08801.

### Awards and Honors:

2018 Section Outstanding Teacher Award, awarded April 20, 2018 by the St. Lawrence Section of the American Society for Engineering Education.

Muncy High School Academic Hall of Fame, inducted May 2016, Muncy, Pa.

“Chemical Engineering Professor of the Year,” awarded May 2015 by the AIChE Student Chapter, SUNY-Buffalo.

Elected Fellow of the American Institute of Chemical Engineers, June 2014.

“Chemical Engineering Professor of the Year,” awarded May 2014 by the AIChE Student Chapter, SUNY-Buffalo.

“Professor of the Year,” awarded April 2014 by the New York Nu Chapter of Tau Beta Pi at SUNY-Buffalo.

- “Chemical Engineering Professor of the Year,” awarded April 2009 by the AIChE Student Chapter, SUNY-Buffalo.
- “SUNY Distinguished Teaching Professorship,” awarded May 2007 by the SUNY Board of Trustees.
- “Chemical Engineering Professor of the Year,” awarded May 2006 by the AIChE Student Chapter, SUNY-Buffalo.
- “University at Buffalo Notable Contributions to Teaching and Learning Award,” awarded by the Provost of the University at Buffalo, 2005.
- “Chemical Engineering Professor of the Year,” awarded April 2003 by the AIChE Student Chapter, SUNY-Buffalo.
- “Chancellor’s Award for Excellence in Teaching,” awarded May 1991 by the SUNY Board of Trustees.
- “Presidential Young Investigator”, awarded in 1988 by National Science Foundation.
- “Lilly Teaching Fellow”, awarded May 1988 by UB Office of Teaching Effectiveness.
- “Teacher of the Year”, 1986-1987 awarded May 1987 by the New York Nu Chapter of Tau Beta Pi at SUNY-Buffalo.
- Procter & Gamble Fellow, Schulte Fellow - University of Wisconsin.
- B. S. with Highest Distinction and with Honors Program in Chemical Engineering, Bruce Wilson Award as the Outstanding Senior in Chemical Engineering, President’s Honor Award, Tau Beta Pi, Omega Chi Epsilon, Phi Eta Sigma - Purdue University.

Research Interests:

Active learning, metacognitive development, reaction engineering, catalysis and reaction pathways

Online Textbook:

1. “A First Course on Kinetics and Reaction Engineering,” C. R. F. Lund, <http://www.eng.buffalo.edu/Research/karetext>.

Book Chapter:

1. “Humin Formation Pathways,” J. Heltzel, S. R. K. Patil and C. R. F. Lund, in “Reaction Pathways and Mechanisms in Thermocatalytic Biomass Conversion II,” Marcel Schlaf and Conrad Zhang, eds. Springer, New York, 2016.

Archival Publications:

65. “Moving From Pedagogical Dabbling Toward Theory Driven Counter-Resistance: Managing Pedagogical Change in Undergraduate Engineering,” Y.-H. Lee, C. R. F. Lund and R. K. Yerrick, *Journal of College Science Teaching*, **revision submitted** (2019).
64. “Low-Temperature Ammonia Decomposition Catalysts for Hydrogen Generation,” S. Mukherjee, S. V. Devaguptapu, Y. He, C. R. F. Lund and G. Wu, *Applied Catalysis B*, **226**, 162-181 (2018). (<https://doi.org/10.1016/j.apcatb.2017.12.039>)
63. “Glucose Formate Conversion in Gamma-Valerolactone,” J. Heltzel and C. R. F. Lund, *Catalysis Today*, **269**, 88-92 (2016).

62. "Reactivity of Levulinic Acid during Aqueous, Acid-Catalyzed HMF Hydration," S. Karwa, V. M. Gajiwala, J. Heltzel, S. K. R. Patil and C. R. F. Lund, *Catalysis Today*, **263**, 16-21 (2016).
61. "Online Simulator Use in the Preparing of Chemical Engineers," R. K. Yerrick, C. R. F. Lund and Y. Lee, *Int. J. Online Pedagogy Course Design*, **3** (2), 1-24 (2013).
60. "Comparison of Structural Features of Humins Formed Catalytically from Glucose, Fructose and HMF," S. K. R. Patil, J. Heltzel and C. R. F. Lund, *Energy Fuels*, **26** (8), 5281-5293 (2012).
59. "Exploring Simulator Use in the Preparation of Chemical Engineers," R. K. Yerrick, C. R. F. Lund and Y. Lee, *J. Sci. Ed. Technol.*, **22** (3), 362-378 (2012).
58. "Formation and Growth of Humins via Aldol Addition and Condensation during Acid-Catalyzed Conversion of HMF," S. Patil and C. R. F. Lund, *Energy Fuels*, **25** (10), 4745-4755 (2011).
57. "A Rate Expression for Water-Gas Shift over a Gold/Ferrochrome Catalyst," G. N. Vajani, Shea Lerk Ng and C. R. F. Lund, *Ind. Eng. Chem. Res.*, **50** (18), 10493-10499 (2011).

Pending Funding Proposals:

1. None at present.

Current Research Funding:

1. "Manufacturing USA: GOALI: Designing Catalytic Membrane Reactors (CMRs) for Low Temperature CO<sub>2</sub> Utilization and Methane Dry Reforming," NSF, 8/1/18 - 7/31/21, \$389,757.00, Co-PI with Mark Swihart and Haiqing Lin.

Past Research Funding:

34. "TEXTs for the 21<sup>st</sup> Century," NSF CCLI, 4/1/08 – 3/31/11, \$125,000, principal investigator.

33. "Catalyst Modification to Reduce Product Inhibition During High Temperature Water-Gas Shift," ACS-PRF, 6/1/07 – 8/31/10, \$90,000.00, principal investigator.
32. "Mechanism for Carbon Deposition on Coated and Uncoated Metals," Praxair, Inc., 3/1/07 – 2/28/08, \$70,692.61, principal investigator.
31. Stone Energy Research Funds, U. B. School of Engineering, 9/1/05 – 8/31/07 \$30,000.00, principal investigator.
30. "Setting up facilities for the creation of course-related video presentations," U. U. P. Individual Development Award, NYS, 4/07 – 6/07, \$302.00, principal investigator.
29. "Environmentally Benign Aromatic Chlorination," U.B. IRCAF, \$45,000, 6/04-5/05, co-principal investigator (with one other).
28. "High Activity Catalytic Redox Sites within Zeolites," NSF (CTS-0099359), \$243,186.00, 6/01-11/04, principal investigator.
27. "Feasibility Data for a New Class of Environmentally-Friendly Chlorination Catalysts," U. B. Environment and Society Institute ESIRP Program, 2/02-12/03, \$5,000.00, principal investigator.
26. "Water Gas Shift Kinetics at Membrane Reactor Conditions," DOE-FETC, 6/99-6/02, \$194,762, principal investigator.
25. "Why do I need to know this stuff?" Educational Technology Grant, \$7,200, 6/01-5/02, principal investigator.
24. "Environmentally Benign Chemical Processes and Products," U. S. Dept. of Education, 8/98-8/01, \$302,664, co-PI in a group of 8.
23. "A Case Study that Spans the Chemical Engineering Curriculum," Educational Technology Grants Program, SUNY-Buffalo, \$10,000.00, principal investigator.
22. "Enhanced Selectivity in Aromatic Chlorinations Through the Use of Improved ZSM-5 Zeolite Catalysts," NSF (CTS-9727315), 3/98-7/00, \$160,000, principal investigator.
21. "Taking CE 428 Online," Educational Technology Faculty Development Grant, \$4,800, 1998, principal investigator.
20. "Membrane Reactors for Control of Selectivity in Multiple Reactions," NSF (CTS-9406620), \$178,332, 9/15/94-3/14/98, principal investigator.
19. "Using Membrane Reactors to Reduce the Generation of Waste Products," EPA (R82343-01-0), \$212,076, 10/1/95-9/30/97, principal investigator.
18. "Selective Electrophilic Substitution of Halogens into Alkyl-Aromatics using ZSM-5," NSF, \$215,999, 4/1/94 – 3/31/97, principal investigator.
17. "Catalytic Polymerization Reactor Studies," \$24,845, 8/1/95-1/31/97, Occidental Chemical.
16. "The Microkinetics of Water-Gas Shift over Pd, Pt, and Rh," PRF, \$50,000, 6/1/94 – 8/31/96, principal investigator.
15. "Reduction of Waste from Series-Parallel Reactions by Use of a Membrane Reactor," \$43,015, 1 year, New York State Center for Hazardous Waste Management, principal investigator. (awarded July 1995 but not funded due to state budgetary reductions)
14. "A Membrane Reactor for Source Reduction of Waste," New York State Center for Hazardous Waste Management, \$62,849, 7/15/94-8/14/95, principal investigator.

13. "Development of a Simulation Laboratory for Chemical Engineering Instruction," NSF, 1.5 years, \$100,000 (co-principal investigator with six others, D. Kofke lead investigator).
12. Presidential Young Investigator Award, National Science Foundation, \$308,500.00, 6/1/88 – 5/31/94, principal investigator.
11. "Direct Conversion of Methane to Methanol," Johnson-Matthey Ltd., \$30,000.00, 11/1/90 – 2/31/93, principal investigator.
10. "Parallel Computing Applications in Multidisciplinary Synthesis," \$45,000.00, 5/28/92, Sun Microsystems, principal investigator.
9. "A Means of Separating Dimethyl Ether," Occidental Chemical Company, \$28,000.00, 1/15/90 – 6/1/91, principal investigator.
8. "Research on Catalysts and Reaction Kinetics," Occidental Chemical Company, \$20,000.00, 2/1/89 – 3/31/91, principal investigator.
7. "Copper Oxide Catalyst for Gas Purification," Chemical Design, Inc., \$9,000.00, 9/1/89 – 8/31/90, principal investigator.
6. Sun Microsystems Equipment Grant, \$37,706.00, 5/90.
5. Experienced Faculty Travel Award, NYS/UUP Professional Development and Quality of Working Life Committee, \$500.00, 7/1/89 to 12/31/90, principal investigator.
4. Exxon Education Foundation Unrestricted Grant for Research on Catalytic Carbon Filament Growth, \$15,000.00, September 1988 – August 1989, principal investigator.
3. Lilly Teaching Fellowship, "A Proposal to Develop a Computer Game which will Demonstrate Reactor Design Problem Solving Methods," \$8000.00, 1 year, Lilly Endowment Teaching Fellows Program, June 1988 – December 1989, principal investigator.
2. New Faculty Development Award, NYS/UUP Professional Development and Quality of Working Life Committee, \$725.00, 1/1/88 to 1/1/89, principal investigator.
1. "Production of Carbon Fibers Using Iron Catalysts," NSF Grant No. MSM-8707606, Engineering Initiation Grant, \$30,000.00, 9/1/87 to 2/28/89, principal investigator.

Current Graduate Students:

1. none at present

Ph. D. Graduates, Dissertation (last known affiliation):

15. Jacob Heltzel, "A Study of HMF Formation During Acid-catalyzed Dehydration of Cellulosic Sugars," 2015. (Post-doctoral fellow at George Washington University)
14. Sushil Patil, "A Mechanistic Study of Formation and Growth of Humins during Acid Catalyzed Hydrolysis of Cellulosic Sugars," Ph. D. Dissertation (2012). (Global Foundries)
13. Gaurav N. Vajani, "Low Temperature Water-Gas Shift Reaction over Gold-Ferrochrome Catalysts," Ph. D. Dissertation (2011). (Intel)
12. Rainee Van Natter, "Active Site Models for High Temperature Water Gas Shift Reaction Over Iron Oxide Catalysts," Ph. D. Dissertation (2011). (Surmet Ceramics)

1. Anthony Knoerzer, "Pulse Adsorption on Zeolite Partial Oxidation Catalysts," MS Thesis (1988). (Mobil Chemical)

Courses Taught:

- CE 631, Chemical Engineering Research Methods II, second year graduate level.
- CE 630, Chemical Engineering Research Methods I, second year graduate level.
- CE 563, Introduction to Catalysis, first year graduate level.
- CE 561, Applied Chemical Kinetics I, first year graduate level.
- CE 429, Chemical Engineering Kinetics and Reactor Design, senior level.
- CE 428, Chemical Engineering Lab 4, senior level.
- CE 427, Chemical Engineering Lab 3, senior level.
- CE 419, Alternative Fuels, junior/senior level.
- CE 329, Chemical Engineering Kinetics and Reactor Design, junior level (replaced CE 429).

CE 328, Chemical Engineering Lab 2, junior level.  
CE 311, Unit Operations I, junior level.  
CE 307, Section on Process Control, junior level.  
CE 212, Introduction to Chemical Engineering, sophomore level.  
CE 100H, Alternative Fuels (Honors Seminar), undergraduate honors level.  
EAS 140, Engineering Solutions, freshman level.

Other Teaching/Mentoring Activities:

Advisor, Student Chapter Tau Beta Pi, April 1997 – April 2000.  
Faculty Mentor, Ronald E. McNair Program, September 1991 - August 1992.  
Host/advisor for student participants in the University at Buffalo Collegiate Science & Technology Entry Program (CSTEP) since Fall 2006.  
Host for minority high school students interested in engineering through the SEAS BEAM (Buffalo Engineering Awareness for Minorities) program, various summers since 1989.  
Advisor, Student Chapter AIChE, August 1987 - May 1990.  
Faculty Mentor, University Honors Program, as requested since 1986.  
Co-ordinator, Chemical Engineering Student Internship Program, September 1986 - December 1989.

Professional Memberships and Activities:

American Institute of Chemical Engineers, American Chemical Society, North American Catalysis Society, Pittsburgh-Cleveland Catalysis Society, American Society of Engineering Educators.  
Director, Catalysis and Reaction Engineering Division of AIChE, 2007-2009.  
Reviewer for *J. Molec. Catal., A:Chemical*, *J. Catal.*, *Appl. Catal.*, *Catal. Lett.*, *Chem. Eng. Comm.*, *Carbon*, *J. Phys. Chem.*, *Ind. Eng. Chem. Research*, *Chem. Eng. Journal*, *AIChE J.*, *J. Membrane Sci.*, *Can. J. Chem. Eng.*, *J. Amer. Ceram. Soc.*, *Chem. Eng. Sci.*, *Langmuir*, *Environmental Science & Technology*, *Energy and Fuels*, Butterworth Publishers, John Wiley Publishers, ACS Books, DOE Basic Energy Sciences Proposals and Programs, NSF Proposals, PRF Proposals, US Dept. of Agriculture Proposals, State of South Carolina.

Symposia Chaired and/or Organized:

Session Co-chair, "Environmental Catalysis." 17<sup>th</sup> North American Catalysis Society Meeting, Toronto, CA, June 2001.  
Co-chair, "Zeolite Catalysis, Kinetics and Characterization." Annual AIChE Meeting, Dallas, November 1999.  
Co-chair, "Clean Manufacturing." 16<sup>th</sup> North American Catalysis Society Meeting, Boston, May 1999.  
Co-chair, "Zeolite Catalysis, Kinetics and Characterization." Annual AIChE Meeting, Los Angeles, November 1997.  
Session Chair, "Zeolites," 15<sup>th</sup> North American Catalysis Society Meeting, Chicago, May 1997.  
Co-chair, "Zeolite Catalysis, Kinetics and Characterization." Annual AIChE Meeting, Miami, November 1995.

Co-chair, "Zeolite Catalysts, Kinetics and Characterization." Annual AIChE Meeting, St. Louis, November 1993.

Organizer and Chair, "Catalytic and Related Chemistry of Methane." American Chemical Society Meeting, Los Angeles, CA, 1988.

Chair, "Carbon Deposition on Catalysts." 17<sup>th</sup> Biennial Conference on Carbon, Worcester, MA, 1987.

Other Professional Service:

Member, Technical Advisory Committee, New York State Pollution Prevention Institute, 2009.

Presented talk entitled "What do Chemical Engineers Do? What do Chemical Engineers Study?" to ChemShare, a local association of High School Chemistry Teachers, March 20, 2006.

University at Buffalo representative to the Council for Chemical Research, June 1997 – January 2006.

Invited participant in NSF PYI Workshop on U.S. Engineering, Mathematics and Science Education for the year 2000 and Beyond, November 4-6, 1990, Washington, DC.

University Service:

Member, Center for Educational Innovation Advisory Council, Fall 2014 - present.

Member, Gen. Ed. Quantitative Reasoning Committee, Spring 2014.

Member, Education Innovation Committee, Fall 2013.

Member, GSE Dean Search Committee, Spring 2013.

Member, Distinguished Series/Chancellor's Awards Selection Committee, 2009 - 2015.

Member, Faculty Senate Teaching and Learning Committee, February 2009 – 2013.

Presented talk to prospective freshmen and their parents entitled "There Isn't an Answer to the U. S. Energy Dilemma, So What Should We Do?," at the U. B. Scholars Forum Seminar, March 29, 2008.

Member, SEAS Program and Building Committee, January 2006 – September 2006.

Member, Center of Excellence in Bioinformatics Building Committee, 2005 – 2006.

Member, Task Force on Graduate Education in the Chemical Sciences, September 1996 – June 1997.

Member, Vice Presidential Committee to Solicit and Review Faculty Nominations for Special Sponsored Programs, January 1995 – January 1996.

Member, Council on Research and Sponsored Programs, March 1995 – 1998.

Member, Vice Presidential committee to select SUNY-Buffalo's nominees for NSF Presidential Faculty Fellowship Awards, October 1993.

Member, Research Foundation Sponsored Programs Advisory Council, January 1992 – January 1995.

SEAS Representative, Graduate School Executive Committee, January 1991 – February 1992.

Member, Advisory Committee for the Office of Teaching Effectiveness, 1990 – August 1992.

Alternate, Faculty Senate, September 1987 – August 1991.

School of Engineering Service:

Member, Engineering Education Department Chair Search Committee, December 2017 – April 2019.  
Chair, Ad Hoc Tenure Committee, December 2017 - January 2018.  
SEAS Awards Committee, August 2014 - present.  
SEAS Promotions Committee, August 2007 – May 2010, August 2012 - August 2016  
chair September 2015 - August 2016.  
SEAS Furnas Hall Emergency Response Coordinator, December 2007 – September 2009.  
Associate Dean for Research, January 2006 – September 2006.  
Chair, MAE Department Chair Search Committee, Fall 2001 – Spring 2002.  
Chair, MAE Department Chair Search Committee, Fall 2000 – Spring 2001.  
Member, search committee for Engineering Computing Services staff, multiple occasions 1993 - 2000.  
Member Graduate Academic Programs Committee, January 1990 – August 1995. Chairperson, September 1991 – February 1992.  
Member Faculty Personnel Committee, July 1990 – June 1994.  
Secretary, Chemical Engineering Chairperson Search Committee, September 1989 – June 1990.  
SEAS Masters of Engineering Committee, September 1989 – August 1995.  
Ad Hoc Academic Grievance Committees: December 1989 – January 1990.  
December 1988 – February 1989.  
Member SEAS Computer Committee, October 1988 – January 1996, September 1997 – January 2006.

Chemical and Biological Engineering Department Service:

Member, CBE Awards Committee, May 2013 - present.  
Member, CBE Faculty Search Committee (materials), August 2013 - May 2014.  
Member, CBE Space and Instrumentation Committee, January 2012 - May 2014.  
Safety Committee Chairperson, September 2006 – September 2009.  
Member, September 2009 – present.  
Department Chairperson, June 1997 – January 2006.  
Faculty Search Committee Chairperson (separations), October 1996 – June 1997.  
Supervisor of Department Secretary, March 1993 – August 1995.  
Member, Faculty Search Committee, October 1991 – June 1992.  
Member, Chemical Engineering Computer Committee, October 1988 – September 1996. Chairperson, October 1988 – January 1996.  
Member, Chemical Engineering Department Graduate Committee, September 1987 – June 1997.  
Director of Graduate Studies, January 1997 – June 1997.  
Acting Director of Graduate Studies, September 1996 – December 1996.  
Director of Graduate Studies, January 1993 – August 1995.  
Chairperson, January 1990 – January 1993.

Personal Information:

Carl R. F. Lund

Born in Philadelphia, Pa.; U. S. Citizen; Married; 2 Adult Children
