

UB/National Grid Camp

A 4-day overnight engineering camp for students interested in STEM careers and entering their sophomore or junior year in high school.

Monday - Thursday
July 31 - August 3, 2017
UB North Campus

CAMP INCLUDES:

- Demonstrations and hands-on activities in engineering design
- Team-building and leadership skills
- Lab and computer exercises
- Field trips and recreational activities
- Meals and lodging

ATTENTION GUIDANCE COUNSELORS, TEACHERS AND SCHOOL ADMINISTRATORS

The UB/National Grid Camp is a wonderful opportunity for students with an aptitude in math and science to learn more about careers in STEM and experience campus life. Please send us the names of up to four students from your school who would benefit from this experience. We are especially interested in students from groups that are underrepresented in STEM professions. Two entering sophomores and two entering juniors may be recommended.

There is no tuition for this program. A \$60 non-refundable deposit is required to reserve the student's place. Scholarships are available on a first-come, first-served basis to students with demonstrated financial need. Each student will receive a certificate at the completion of the program.

RECOMMENDATIONS ARE DUE BY FRIDAY, JUNE 2, 2017
