SEAS Early Career Researcher of the Year Award

Description

This award is presented to faculty member(s) whose recent research demonstrates relevance and importance to the overall mission of the School of Engineering and Applied Sciences. Eligible awardees must be full-time members of one of the School's departments/units and are untenured at the Assistant Professor level. A faculty member may receive the Junior Researcher Award only once. A maximum of five awards will be made each year.

Nomination

Each Chair may nominate up to three persons from his/her department for this award. Individuals may self-nominate through their Chair as well. A cover letter and recent CV must accompany the nomination. Applications shall be considered by the SEAS Awards Committee. The nominee's name (with nomination materials) will be forwarded to the Dean for final approval.

Criteria

This award recognizes outstanding untenured junior researcher(s) in the school whose recent work has made significant contributions to his or her field. This may be indicated by a significant publication(s), a sustained record of tier-one publications, or a sustained record.

Deadline

October 1
