

Chunming Qiao

[homepage\(not up-to-date\)](#)

Research category: C) Systems,
and D) Interdisciplinary

Research area: Computer Networks,
Mobile Computing, Human-Computer
Interactions, and Robotics

Research application: self-driving
vehicles, smart cities (transportation),
IoT, Cloud and edge computing,
quantum data networking

Selected funded research projects:

- Complete Trip App & Self-Driving Shuttle Deployment (DOT)
- Smartphone based traffic and road geometry estimation (NSF)
- Secure and Private ML platform (NSF)
