## Scholarships

### Gustav and Grete Zimmer Memorial Scholarship

This scholarship was established to support **undergraduate majors in mechanical and aerospace engineering** and is typically awarded to students **participating in or planning to participate in research**. We invite all ME and AE undergraduate students who will be **doing research during Spring 2019 and/or Summer 2019** to apply through the [UB Scholarship Portal](#).

Applicants are expected to have already been in contact with their proposed advisor to discuss potential research areas of interest.

**Application deadline is February 15, 2019.**

## Events

**AIAA Dinner Meeting & Lecture | Feb. 21 at 7:00PM | Protocol Restaurant**

The Niagara Frontier Section of the AIAA is hosting their monthly dinner meeting and lecture featuring Dr. Jim Green, *NASA Chief Scientist*. Dr. Green will share his true passion, Civil War ballooning, and speak on the challenges and accomplishments of Professor Thaddeus Lowe and his fellow aeronauts. **RSVP and pay by Monday, February 18.**

## Research Competition

UB Sustainability is searching for students from across New York State to present their revolutionary clean energy ideas. Students that have completed a project or program, or have an idea for a new policy, invention or business can apply. First place will receive \$3000, second place \$2000, third place will receive \$1000 and all students that are selected to participate in the final will receive a professionally edited video of their presentation.

For more information, visit [here](#).

To post to the weekly bulletin, contact Andrew Fogelsonger at [afogelso@buffalo.edu](mailto:afogelso@buffalo.edu)

## ANNOUNCEMENTS

### Innovation Challenge

Erie Hack is an innovation challenge that accelerates technology solutions to Lake Erie's most significant problems. Student teams can compete for more than \$100,000 in prizes at the final as well as a smaller pool here at during the UB selection process.

**Short-term experiential education for our world's most  
pressing issues in sustainable development**

## **The GREEN Program at University at Buffalo**

Friday, February 15th

Silverman 16

6:00 PM

**RSVP [HERE](#)**

[The GREEN Program](#) (TGP) is an experiential education and workforce development program for young leaders in sustainable development. Created for students, by students, TGP has introduced a new model for education abroad driven by a desire to provide purposeful, hands-on industry exposure at a fraction of the time and cost of semester-long abroad programs.

All of our programs are 8-10 days during winter, spring, and summer break. We attract students and young leaders who are curious about the world and seek opportunities to break out of their comfort zones and stand out amongst their peers as global citizens. Our accredited, short-term model focuses on bringing together students from around the world to unlock doors to governmental, public, and private facility access, private tours, and unique bucket-list experiences. We work with universities around the world to redefine the classroom- from lecture halls to studying the effects of climate change on top of our world's glaciers. Currently we offer programs in Iceland, Peru, Japan, and Nepal.

An alumnus of our program and on-campus student Ambassador, Daniel Petrov ([dpetrov@buffalo.edu](mailto:dpetrov@buffalo.edu)), will be hosting the info session and sharing his experience.

If you can't make the info session please contact Amanda at [amanda@thegreenprogram.com](mailto:amanda@thegreenprogram.com) directly for more information.
