[More information](#) | Contact Nick Stachowski (nistacho@buffalo.edu) with any questions.

Internship Opportunity

Mechanical Dynamics and Analysis (MD&A) | Euclid, Ohio

MD&A is a service company that rebuilds both gas and steam power generation turbines for the utility and industrial markets. The Euclid shop rebuilds Bearing, Seals, and Hydraulic valve actuators in support of the turbine rebuilds. This is the second year MD&A will be employing an intern from Buffalo in support of its ongoing Quality Improvement Process.

The timing of the internship is flexible running roughly from the Beginning of June through Mid August however the students scheduling needs will be taken into consideration. MD&A will provide living quarters or expense as well as travel reimbursement over and above the salary. In addition to the time spent during the summer it will be necessary to spend a few days at the facility during March to understand the shop and process prior to beginning in the summer.

Submit resumes to: gvetter@mdaturbines.com

Resume Review Night

Thursday, March 28 | 6:00 PM | 301 Crosby Hall

Join the American Society of Heating, Refrigeration, and Air Conditioning Engineers (ASHRAE) for a resume review session with local engineers! All undergraduate students are welcome! Bring several copies of your resume that you don't mind being marked with suggestions. If you would like to attend or have any questions, please contact Austin Kozuch, ASHRAE student representative, at adkozuch@buffalo.edu.

To post to the weekly bulletin, contact Andrew Fogelsonger at afogelso@buffalo.edu
